

**Non-dilutive
Funding for
Life Sciences**

IowaBio has partnered with G2G Consulting, which has secured over **\$528 million** in government funding since 2007. As an IowaBio member, you will receive a monthly report on life sciences grants and access to a monthly webinar with government funding experts to ask questions and gain insights on how to obtain funding. The GBG Report is updated and published monthly with opportunities spanning from NIH to BARDA to DoD to NSF to USDA to ARPA-H. G2G also provides a broader landscape of opportunities across bioeconomy, infrastructure, Ag-Tech, STEM education and workforce development initiatives, and more!

The GBG Report Provides:

- The title of the grant and its opportunity number
- Agency funding the grant
- The amount of funding available
- Deadline for submission
- Summary of the opportunity and its key criteria
- A direct link to the grant package

Learn more about G2G

Monthly Webinars on Government Funding

Join G2G's monthly webinar every 3rd Thursday of the month where they will highlight funding opportunities in the current month's GBG Report, followed by a private consultation and Q&A session exclusive to IowaBio members, other Bio Chapters, and G2G clients. Go to members.iowabio.org/eventcalendar to learn more and join the next webinar.
